

Mission Statement

The aim of the nursery is to provide a safe, caring, inclusive and stimulating environment for all children 0-5 years attending the setting. The personal, social and emotional development of all the children in our care is paramount, as is the educational development of each child, which is evident through the staff's planning for each child individually.

We are committed to giving your child a home-from-home care experience and through excellent parent partnerships we can ensure your child settles into nursery life easily. All resources and equipment is age appropriate to the relevant age groups with staff/child ratios being met accordingly.

All staff have the required legal qualifications, training and checks to ensure the nursery is run to the highest standard of care. Training is also constantly up-dated in accordance with Ofsted requirements and personal staff development.
