

TOILET TRAINING POLICY

The nursery welcomes children from the age of three months until five years old regardless of whether they are toilet trained or not. Our policy is always to support the child in any way we can to help their personal and educational development. Support to both the child and their parents will be given at all times if needed. Whilst toilet training we would ask parents to provide us with a bag containing lots of spare clothes and underwear in case of accidents.

Nursery does not provide nappies and wipes for your child. These items need to be brought in either on a daily basis or in bulk. They will be named and stored in the bathroom and the parents will be informed when more are needed.
