

EQUIPMENT AND RESOURCES POLICY

We believe that high quality care in the early years setting goes hand in hand with your child receiving a high quality education. This is provided in nursery through our resources and equipment, which will extend children's knowledge, skills and interests. These resources will also be clean, safe and age appropriate.

We have more than a sufficient amount of equipment and resources for the number of children attending the nursery, all of which are safe and conform to the BSEN safety standards where applicable. The toys, books, etc are all selected specifically to promote positive images of people of all colours, cultures and abilities, are non-discriminatory and avoid racial and gender stereotyping.

The resources and equipment are largely stored where children can reach them and independently choose them. They are checked on a regular basis to see if any need cleaning, repairing, replacing or are worn out. A file contains the contents of all equipment and resources check lists for cleaning, repairing and disposing.

Play equipment is challenging and meets the interests and needs of all the children. Toys also promote continuity and progression.
